More is to come living winning tall
In paradise overlooking a city lit up
Staying afloat challenges like traffic

Crow at dawn years counting pass
Memories of the morning to relive

LOST WORLD

From fire ice spring forth turn cold then heat
Allegory seeing in faint thirsty need more fill
View in opaque paddle across deep blue sea
To find gold, riches of man travel to hills top

Circle of wind strong digging deep into earth
Whirl hole portal open visualize outer realm
Floating souls market square trading of lives
Old to new face, bygones for many are stale

Lost world hidden away from ordinary eyes
Price and exchange each one a soul it count
Puzzle and riddle to solve finding a way out
Retrace not found dimensions on new path

Dust tell source of energy direction bound
Find way to earth revisiting once a life end

GRAIL

Dress in gold diamond coated precious stone
Value until bone like fountain deep unending
Knowledge for keep awake at night searching
Hand to receive Holy Grail message take home

The wisest is not he who stays away all alone
Surrounded multi-facet watch like eagle eye
Not to fall prey, keeping life line of currency
Wisdom to relate in words kept makes a way

Innovate for there is unique in every being
Out of the box read fly high see write down
Vision reveal road paved challenge appear
Skid through the rain bold and face all fear

Grail, inspired, open receives all to come
Portion to drink let my cup run overflow

DIAMOND

Normand thinking hidden so deep in heart
To core of earth hot many a struggles spat
Priceless, child eyes of tears giving a smile
Frame up high reveal time of war n search

Blood thirst landing for diamonds buried
Charge upon hills exhume, no stones left
Following a map incorrect a mind of theft
Camp confused soldiers all sit so worried

Sanctimony diamond leader takes throne
Protecting heritage bring peace and light
Words to motivate defeat opposing sides
Secure future for the young with fortunes

Cries wiped away all hail sun giving bright
Like diamond have heart crystalline pure

PLANET EARTH

Circle of life it goes around God planned
Man created to disrupt with gun n bomb
Living ruins climate clouded in pollution
Corrupt practices unfair trade in market

Downplayed value for peaceful existence
Many remain positive fill with persistence
Spill from toxic, ocean with plastic covers
Epoxy binding man in need, new lifestyle

Fair use of planet for generation to come
Rivers running dry water source in threat
Efficiency decline for earth need a rebirth
From dictators and warlords blood rulers

Take me back to green love of vegetation
A round table to make earth whole again

WIDE

Abyss to reconcile, humans drifting apart
Lens for capture into forests wide of wild
Life all is part come together make whole
Days to nightfall many voices clearer call

Bond form like clay dust from wide come
Positive to charge emitting rays in turns
Wider thoughts is gone climb seeds tall
Germinate some more ideas all in word

Treading across rift communicate uplift
Horizons wide over fence look and see
Out of labyrinth resolute in conscience
Open blood cell red flow making mortal

Wide range of emotions perception view
Link to connect like last piece in a puzzle

REPURPOSE

Crying wolves flying doves run round circles
Unveil to reveal million path make one cycle
Locked up in cage roar waiting for time it tell
View from high colors dim not many a- smile

Disturbed mind sleepless night movie replay
Broken sticks lit up woods life burns in array
Hunger and cries government acts of chary
One-day life turn, glimpse upon new parley

Turbo on new lane out of past new horizon
Flying soon to moon make strong all weary
Better is tomorrow for making of art to last
Fast, all heart prosper to distance non-solo

Disturbia sounds and creeping movement
No avail light is come, time shine so bright

SONNET OF A TRAVELER

Through the forest run angry wolves attack
Jumping log falls and rolls hard break back
Ghost of past chase want grab for entwine
Cast thee away sending evil back to swine

Dark night rowing boat Sea begins uproar
Waves high and low, sharks sea lions roar
Boat capsize middle of ocean a dead see
Sinking to bottom for trip transcends fee

Ride on cloud angel wings, everyone bow
Carpet on ground royalty found to endow
Reality obscure eyes treated looking afar
Years ahead for events to play hole a par

Traveler alien and back, in storms stand
Motion bound and not to cease till end

VENUS

Form divine with beauty of a god
Eyes full of love strike open a pod
Seed sown deep in heart, your arm
I want to lie in, protect from harm

Striking a pose no one can resist
Strong armies at look face defeat
A call upon Venus to restore love
Down high echelon rays all above

goddess, love arrow pierce heart
Bleed out passion, emotion last
Pleasure, ground's set die is cast
Healing run through sensual pet

Riverside, goddess Venus appear
Cupid singing songs ends all fear

PRECIOUS

Mining deep down to find true emotion
Tilt at edge, fall to sea drown in potion
A sinking ship, for love to keep afloat
Older we better, hold hands row boat

Never to depart stick across centuries
Blood and form precious like cowries
Bond grow stronger forever like gold
Your warmth I cherish, a mortal bold

Precious is moment of song and cold
Years unfold our escapades be retold
Purest ever found she walk this earth
Smiles, joy all year round giving birth

More life to come standing firm in you
A love so refreshing like morning dew

PEACE DIVINE

Many lives have come, restless and they go
Strait of troubles, evil horns and they blow
Trumpet sounds, arise and find your light
Shining path unto days until turn to night

Tongues who spite like razor they cut life
Walk in darkness a mind buried in ground
Wishing to cut great destiny, seed to grow
Inflicting pains like demons they possess

Midst of all I find my peace from divine
A calm soul working to create, innovate
Experiences replay mistake not to make
Living till old a large family cutting cake

Mind on earth and all manmade to feel
None to be judged, fluid flowing like sea

RITE OF PASSAGE

Rite of passage, go to great beyond
Effervescent of dust mixed returns
Disintegrate thoughts and to bond
Body, spirit and soul pure like Nun

Historical ways be evidence of time
Like seeds in line growing to be fine
Bright of light and passage appears
Whirling portal open to protect fear

Creep in, grind digging to find ways
Blood and signs to currency for pay
Sweat all night, for humans devoid
Essence, fragrance, colors Polaroid

Up away gone leaving behind track
Passage to find in knowledge kept

SAILING

From the creeks, sailing unto Atlantic
Nocturnal moon give light and pacific
Rowing, warriors beat drums of chant
A fight for freedom, sail move like ant

War canoe we land on Akassa ground
Break through deception years bound
'To die by sword better than of hunger'
Wealth taken, and keep poor -monger

Decisive we stand ending oppression
On our waters we sail to regain rights
Reclaim inheritance, all of possession
Sing burning hoja spirits to cure blight

Battle water cannons fire, we keep sail
Last of blood we spill for ours unborn

ROCKING BOAT

Rocking boat dancing to rhythm of wave
Sound of engine like drum beat concave
Calling, birds echo and regatta come out
Like summer at riverside paddle and row

Rocking boat, ups and down such is life
Stand strong deep foot in seas like jetty
No more cry happiness wipe away petty
Clash, clang, clans spread wide across

Rocking boat till old live in love till cold
Holding hand history be told of growth
Seeds sown into future, light is thrown
From high god is known gold is shown

Rock-a-bye going to oblivion work done
Next born to relive protect what is come

ETERNAL

Eternity reveals on same path walking
Nature stalking keep record of talking
Hear whispers trespass new boundary
Blood form like iron from new foundry

To eternal chase of good and what all
Leap and strides on pyramid stand tall
Knowledge, seek light at end of tunnel
Streamline life like oil through a funnel

Engines rotate air to fuel till lights out
Cup overflow into a new realm of time
Close eye and see millennium in sand
Image germinate to eternal it resound

Seconds past never to return, it's done
Eternal, destination for all mortal born

OTHER SIDE

Peaceful night reflect of images on sky
Read through hidden lines of high facts
Mysteries and spice on other side of life
Glimpse, pipe chimney burning incense

Lullaby angelic voices and they all sing
Soothing sound relax the mind no think
Cross finish line, a heart pacing it relax
Savor time of victory from bill and pay

Faces smile from ground, peaceful arise
Other side of life all white beauty appear
No stains from spill, emotion kept intact
Floating dead and alive in market to buy

Buried in ground side of world unknown
Seeds they sprout sign of good we know
